

Trade name: Propamocarb 722 g/l (SL)
 Chemical name: Propyl[3-(dimethylamino)propyl]carbamate monohydrochloride
 CAS: 25606-41-1
 EINECS: 247-125-9
 Other names: Propamocarb hydrochloride
 Molecular formula: $C_9H_{20}N_2O_2 \cdot ClH$
 Structural formula:

General description: yellow to auburn liquid

Quality values

Content of active substance (PPMC.HCl)		720 - 740 g/l		
pH		2,5 - 3,5		
Content of dimethylaminopropylamin (DMPA.2HCl)		max. 5 %		
Content of dimethylaminopropyl urea (DMPM.2HCl)		max. 5 %		
Sum of impurities		max. 7 %		
Relative density (at 20 °C)		1,08 - 1,09 g/cm ³		

Storage Store in closed packages in dry warehouses with good ventilation at the temperatures 5 - 30 °C separated from food, feedstuffs and fertilizers.
